SKILLS

- Languages:** JavaScript, HTML5, CSS3, SQL, NoSQL
- Frontend:** React.js, Redux, Remix.js, Hugo Framework, Bootstrap, Tailwind CSS, jQuery.
- Backend:** Node.js, Express.js, REST APIs
- Databases:** MongoDB, MySQL
- Tools & Platforms:** Git, GitHub, Vite, Parcel, React Router v6

PROFESSIONAL SUMMARY

Web Developer with **4.9** years of experience building scalable, high-performance, and user-centric applications across fintech, edtech, healthcare, and e-commerce industries.

- Strong expertise in the MERN stack (MongoDB, Express, React, Node.js), Hugo static site generation, and modern frontend frameworks (React, Redux, Tailwind, TypeScript)
- Built 30+ projects including dashboards, SaaS applications, and static websites, ensuring optimized performance, responsive design, and seamless user experiences across devices
- Skilled in API integration and performance optimization, implementing caching strategies, lazy loading, and efficient state management to deliver production-ready deployments.
- Adept at improving UI/UX by applying accessibility standards, responsive design principles, and user-centered workflows, resulting in enhanced engagement and usability

PROFESSIONAL EXPERIENCE

Prutor AI @ IIT Kanpur

(Jan 2024 - Present)

Web Developer
JavaScript | Hugo | Typescript | Node.js | MERN | MongoDB | SQL | REST APIs

- Built and maintained end-to-end full stack applications using the MERN stack (MongoDB, Express, React, Node.js), ensuring scalability and seamless performance for edtech platforms
- Developed Hugo-based static websites optimized for speed, SEO, and lightweight deployment, reducing hosting costs and improving accessibility.
- Optimized application performance, reducing load times by 30% through code refactoring, efficient state management, and caching strategies.
- Collaborated with cross-functional teams including designers, product managers, and backend engineers to deliver robust, user-centered solutions.

Orcip Systems PVT. LTD.

(Feb 2021 - Jan 2024)

Web Developer
HTML | CSS | Tailwind | Bootstrap | JavaScript | React.js

- Delivered responsive, cross-browser websites using React, Tailwind, and Bootstrap, ensuring pixel-perfect design and seamless mobile-first performance.
- Implemented authentication flows and REST API integrations for product platforms, enabling secure user login, role-based access, and real-time data updates.
- Optimized frontend performance by applying lazy loading, code splitting, and reusable components, reducing page load times.
- Enhanced UI/UX by implementing custom CSS grid systems, animations, and transitions to deliver visually engaging and performance-optimized designs.
- Designed and maintained pixel-perfect, reusable UI components using React and modern CSS techniques, ensuring consistent visual language and efficient development across multiple projects.
- Leveraged Tailwind CSS and Bootstrap utilities to rapidly prototype and implement modern, clean, and responsive interfaces, reducing development time while enhancing user experience.

OTHER PROJECTS

Food Ordering App

React.js | Redux | Tailwind CSS | REST APIs

- Developed a full-featured food ordering app leveraging Swiggy API.
- Created from scratch using Parcel, React-Router-Dom v6, Redux, custom hooks.....
- Created responsive and cross-browser compatibility using Tailwind CSS.

YouTube Clone

React.js | Redux | Tailwind CSS | REST APIs

- Developed a YouTube clone application using YouTube APIs.
- Implemented features including video search, recommended videos, live chat, and nested comments.
- Built using Create React App, React Router v6, Redux, and styled with Tailwind CSS for a modern, responsive UI.

E-Commerce App

React.js | DummyJSON APIs | Ant Design & Material UI

- Created a fully functional e-commerce platform using DummyJSON APIs.
- Implemented login authentication and form validations.
- Developed a responsive dashboard with multiple components: Sidebar, Header, Main Components, Footer, and Item Details.

Weather App

React.js | RESTAPIs | Tailwind CSS

- Built a weather application fetching real-time data from OpenWeatherMap APIs.
- Developed with Create React App and styled using Tailwind CSS for a clean, responsive interface.

EDUCATION

MAGADH UNIVERSITY, BODH GAYA, BIHAR Bachelor of Science, PCM	(2013 - 2016)
S.B.S INTER COLLEGE SANIBASANTPUR, SIWAN, BIHAR Intermediate of Science, PCM	(2011 - 2013)

CERTIFICATIONS

- **Introduction to Software Engineering**— Coursera
Overview of software development lifecycle, software processes, requirements, testing, and engineering principles.
- **Introduction to HTML, CSS and JavaScript** — Coursera
Learned the fundamentals of web development, including structure, styling, and interactive behavior using JavaScript.
- **Front End Development Libraries** — FreeCodeCamp
Gained hands-on experience with React, Redux, Bootstrap, jQuery, and modern frontend workflows.
- **Legacy JavaScript Data Structures and Algorithms** — FreeCodeCamp
Covered recursion, algorithmic thinking, ES6, and problem-solving using JavaScript.
- **Responsive Web Design** — FreeCodeCamp
Focused on HTML5, CSS3, Flexbox, Grid, and accessibility principles to build mobile-first, responsive websites.
